## SATIENT

- \* **12+ years of SAP Consulting and Business Process Re-engineering Expertise**
- \* **Backed by 100s' of man years experience in manufacturing industries process execution and process consulting**
- \* **End-to-End Solution provision on Kavsk (SC4SAP), a SAT Managed Private Cloud**
- \* **Out of Box Solution for Manufacturing Organizations leveraging SAP Best Business Practices**

application management. Infrastructure (compute & storage) is provided and managed by SAT and is also responsible for the management of the layered software SAP and keeping it up to date in an instance dedicated to the client. With a dedicated implementation like on-premise, can customize the application to fit industry requirements. Like public cloud, can transfer responsibility of managing the application and its infrastructure to a company that has expertise in managing IT Infrastructure and SAP S/4 HANA application. Deployment empowers organizations to overcome business and IT operational challenges, enhance agility and transform IT and business
